G&S Solar is a utility-scale solar company that has built over 200 projects, deploying over \$500 million of renewable energy since 2010.

what is it?

Benefit from solar power without installing panels! New York Community Solar is a state-approved opportunity for New Yorkers to reduce their electricity bills by subscribing to solar projects located elsewhere in their community.

This opportunity is available to Con Edison customers only

how it works

- 1 The electricity generated by a G&S solar array enters the utility grid
- 2 Con Edison provides G&S with bill credits
- 3 G&S saves you money by applying these credits to your bill, providing you with a 10% discount

sounds great! how do i sign up?

- 1 Visit our website at gssolar.com/sign-up
- 2 Provide your basic info and Con Edison account number
- 3 Set up your payment method
- 4 Sign your contract!
